

Subject Access Request form

Uber B.V. conveniently provides Uber users with self-service access to their personal data in the Uber app, or in their online customer account [riders.uber.com and/or drivers.uber.com], where information can be found on recent trips and receipts and profile information can be updated or deleted. For your convenience you can also find a clear summary of the data that we process in our Privacy Statements and our Terms of Use.

If you still need access to any other personal data that we may hold about you, please fill out this form that was designed for your convenience to correctly submit your request for access to your personal data. When we have determined that your request is valid, we will process your request and provide you with an overview of the personal data that we are reasonably able to locate and retrieve.

Please note that, while we want to be as helpful as possible, we cannot release any data with any personally identifiable information (PII) that could be connected to any specific individual other than yourself. It is not just our policy, it is our statutory duty to also protect the personal data of the other users of Uber. As a consequence, we cannot provide you with individual comments or ratings as these would disclose or could be connected to PII of others.

* Required

Identification: what is your name? *

[Your answer:....](#)

Identification: what is the email address associated with your Uber account? *

[Your answer:....](#)

Identification: what is the phone number associated with your Uber account (please include country and area code)? *

[Your answer:....](#)
